SC Governor's School for Agriculture at John de la Howe

October 2021

## FROM THE PRESIDENT

Tim Keown

October 2021, for our Aggies, has been a whirlwind of educational, competitive, and recreational activities! Our students have traveled all over South Carolina, Georgia, and several states between here and Indianapolis, Indiana. People hear me say this often, but I am envious this unique opportunity wasn't available a few decades ago!

This month we have had students competing in small animal, dairy, beef, and swine exhibits all over SC. Those students ended their "show season" last week at the State Fair in Columbia. **Trey Haddon** and **Sierra Tinsley** especially had a successful show season! Sierra won a \$2,000 scholarship at the **SC State Fair** and a \$250 scholarship at the **Laurens County Dairy Show!** Trey finished this year by winning a \$1,000 Scholarship for his Swine project and \$2,500 for his beef project! Both of Trey's scholarships were provided by one of our partners, the **South Carolina Farm Bureau**.

Several of our students traveled to the **Sunbelt Ag. Expo** in Moultrie, Georgia. This is the largest agricultural expo in the South. Students learned about modern agricultural equipment and the agri-technology that is being developed which makes our industry so fascinating!

## IN THIS ISSUE

**Bob Edmonds FFA Jacket Ceremony** | Page 7  
**2021 HOWE-Iloween Festival** | Page 23  
**JDLH @ South Carolina State Fair** | Page 26

All students came back with material from various Ag colleges and made industry connections for future job opportunities!

Twenty of our FFA members attended the **94th National FFA Convention & Expo** in Indianapolis, Indiana. As I write this, they are there on their last day. They will return to campus tomorrow. This convention is the annual highlight for our FFA members. They can interact with 60,000 other FFA members from across the United States. Our state-winning Agricultural Mechanics and Wildlife Teams both proudly represented South Carolina on the National Level!

# MONTHLY NEWSLETTER

SC Governor's School for Agriculture at John de la Howe

Our brand new JDLH Foundation met earlier this month and elected their slate of officers. **Georgia Seabrook** was elected chair, **Steve Jordan** was elected co-chair, and **Martha Sanders** was elected Treasurer. The other board members include **Bo Blanchard, Bonita Clemons, Edgar Lamb, Dr. Fay Burnett, Gary Coleman, Leon Fulmer, Dr. Melissa Frank-Alston, Jessica Wright, and Sandi Boazman**. This board has already gone to work raising funds for the Foundation which in turn helps to fund our student activities. A loud THANK YOU to the Foundation for paying for our students' charter bus to attend the National FFA Convention! That took a huge burden off our students and teachers to raise those funds.

For our friends and supporters involved in production agriculture, we hope you have a safe and productive harvest season!

## AGGIE OF THE MONTH

Trey Haddon

**Trey Haddon** is a Senior from Gaffney, SC. Trey has been a student leader since he first stepped foot on the JDLH campus. Currently, he serves as the 4-H President and the FFA Treasurer for the SC Governor's School for Agriculture. **Kinsley Miller** stated, "Trey is an exceptional student. His dedication to agriculture and his education truly reflects the spirit of an Aggie!"

Most recently, Trey represented our school at the **South Carolina State Fair**. While there, he won the \$1,000 Pork Board Scholarship and Reserve Grand Champion Overall in Junior Market Hogs, 1st place in the Education Contest, and Reserve Champion Senior Exhibitor. Trey also won the **South Carolina Farm Bureau \$2,500 Beef Scholarship**.

Trey serves on the State 4-H Board as the State Teen Council Representative for the Upstate. Trey also was accepted to **West Texas A&M University!** "Whenever I need help Trey has always stepped up ready to help out and even try new things. I have really enjoyed having Trey in my classes and working with him and his Livestock projects," said **Libby Templeton**.

## PRINCIPAL'S REFLECTION

Greg Thompson

Since graduating from **South Carolina State University** in 1988, I've had several jobs. I've been employed as a teacher, coach, and assistant principal. As a high school principal, I have been given the ability to tremendously impact my students and my employees. I've found that being a high school principal is the most rewarding job I've had throughout my career. Being a high school principal is much more than just an occupation, it is my passion. **Coming to work every day is effortless because I know the benefits of what I do.**

I received my first principalship when I was 38 years old. I was what you would call, "green and wet behind the ears." I worked very hard to ensure everyone was happy and I didn't want to disappoint anyone. The word "no" was not in my vocabulary. It seems like I said "yes" to everyone who had an issue or a problem. Eventually, I realized that trying to make everyone happy led to my decisions being inconsistent and ineffective. Sometimes, my decisions made one person happy but upset several others.

Going into my second year, I made a conscious effort to make more sound decisions—balanced decisions. I realized that it was okay to say "no." Because of that, my decisions were fairer and more consistent. This new approach to leadership made some people angry, but I found that even more people were happy. Even though I knew some of my decisions would not seem fair and would make me unpopular around the school, I could not let that bother me. I was not the "fair police" and my decisions had to be made to improve the school and help students graduate. They were not designed to satiate the desires and whims of others. This change in leadership helped me develop a thick skin and embrace the fact that I will not always be a popular person in the school. This was a huge curve from becoming a beloved middle school teacher/coach to a high school principal with tremendous responsibility. That being said, during my third year, I experienced a day I will never forget.

The day started off with two students fighting. The parents of the two students weren't pleased with their child's consequences, so they went to my supervisor to complain. To bring more context to this situation, several of my employees were already mad at me for some decisions I had made earlier that week. In addition to that, I also had a disgruntled bus driver and the knowledge that a student had written something inappropriate about me on the males' restroom wall. Every small hill had gathered that day to make a mountain. At the basketball game, it seemed like no one would speak to me. When they did manage to catch my gaze, some of the parents actually rolled their eyes. Usually, things like this wouldn't bother me, but this day, I was very sensitive and wore all my emotions on my sleeves.

After the game, I asked my best friend to meet me at the Waffle House for a late dinner. I've used my best friend over the years to vent and work through my problems. I love talking to my best friend because he always tells me what I need to hear instead of what I want to hear. When I walked into the Waffle House there was only one booth that was occupied, I noticed that one of the people in the booth was a former student I had when I was the assistant principal at my previous school. The student had a major discipline problem. When he was in school, I dealt with him on several occasions. I saw a lot of potential in him when he was a student, and I had had several conferences with him. Nothing seemed to work. Eventually, he got expelled from school and became a high school dropout. So, when I walked into the Waffle House, he was the last person I wanted to see. So, I acted as if I didn't see him and sat in a booth as far away from him as possible.

My best friend showed up and the first thing I asked him was, "Do you have people who just don't like you?" With the biggest smile, he said, "No, everyone likes me." He was right. I had and have never met a person that didn't like him. Being the friendly and caring person he is, I didn't doubt it. He allowed me to share my day with him and vent my concerns to him. Midway through my "Pity-Party" my former student and his friends left. I was glad to see them leave because with them there I almost felt as if I were still at work.

My best friend and I stayed another thirty minutes. He gave me great advice and my spirits were lifted. I offered to pay for the meal since he gave me a Dr. Phil counseling session for free. When I got to the register to pay for our meals, the waitress informed me that my former student had paid. I was stunned and shocked. The waitress also informed me that the student wanted me to know that he had earned his GED and is gainfully employed. He said he didn't understand all my lectures and advice I gave him during our conferences until now. He just wanted to pay for my meal to thank me for everything I tried to do for him. My best friend looked at me and said, "I thought you said nobody liked you?" That was a great way to end a rough day.

In conclusion, the practice of an unexpected person paying for your meal is called "Pay it Forward." My wife and I eat at the Waffle House once a week and on numerous occasions, we have had people pay for our meals and we have paid for others. It genuinely feels nice to be able to pay for someone's meal and pass on a little kindness as a result. You never know how that "little kindness" can matter to someone having a rough day.

The best thing I got out of that rough day was not just the free meal. It was the fact that I made enough of an impact on a former student that he felt compelled to thank me through such a kind gesture. He didn't have to do anything, but because my life changed his, he would now go on to change others. It's an endless cycle that starts with you. As an educator, you must always make the decision to be a positive influence. Educating students is practically like raising your own children. It's tough work. Some days are harder than others. And sometimes, you feel like you're talking to reinforced steel instead of kids on the precipice of adulthood. I know. I was like that too. Like many other people, I didn't understand or appreciate my parent's advice until I got older. The same could be said for my teachers.

However, now that I'm into my later years, I realized how fortunate I am. I have been blessed to have had great parents and educators in my life. Not many schools can claim the same. Fortunately, I know that we have surrounded our students here at the SC Governor's School for Agriculture with educators that will have a positive impact on their lives. **Many years from now, I can see each and every one of our students, "Pay it forward."**

## The Education Center AT JOHN DE LA HOWE

Kinsley Miller

On October 1st, the Education Center hosted a Burlap Wreath Workshop. Thank you to special guests **Kyle Fuller** and associates of **Divine Your Space** for leading us through the process of making a burlap wreath!

On October 5-7th, the Education Center had the opportunity to host a **Livestock Welfare Assessment Skills for Law Enforcement** program. We were proud to host professionals from the **University of Georgia Extension, University of Florida IFAS Extension, Florida Farm Bureau, and Clemson University Cooperative Extension!** The objective of the program is to provide law enforcement and state agency personnel basic training needed to make sound decisions regarding generally accepted livestock production practices. Law enforcement professionals traveled from all over the state to participate in this three-day program!

## The Education Center AT JOHN DE LA HOWE

Did you know that the Education Center at JDLH offers agriculturally focused field trips for elementary, middle, and high school students? Thank you to **Bettis Preparatory Leadership Academy** for visiting us on Friday, October 15th! 30 middle school students participated in labs from our Agricultural Mechanization and Horticulture pathways. Contact [Kinsley.Miller@delahowe.sc.gov](mailto:Kinsley.Miller@delahowe.sc.gov) to book your field trip experience today!

On October 20th, **Kinsley Miller** had the opportunity to speak at a meeting for the **Clarice Wilson Garden Club** at the **Poinsett Club in Greenville, South Carolina**. Over 30 garden club members were in attendance. The group enjoyed a presentation on the South Carolina Governor's School for Agriculture at John de la Howe and the programs the Education Center has to offer! The group generously donated to the school's nonprofit Foundation after learning about the school's mission and vision.

The Education Center at JDLH will host the 1st annual "**de la Howe Wildlife Conclave**" on January 20-23, 2022! This is a valuable professional development opportunity for high school students across the Southeast interested in the field of environmental and natural resources. More information and team registration are available on our website here: <https://bit.ly/3BWTiSp>. The deadline to register is November 19, 2021. For questions, please contact [Kinsley.Miller@delahowe.sc.gov](mailto:Kinsley.Miller@delahowe.sc.gov).

## BOB EDMONDS FFA JACKET CEREMONY

The South Carolina Governor's School for Agriculture at John de la Howe is honored to present the honorary National Future Farmers of America Organization (FFA) jacket ceremony to Bobby "Bob" Franc Edmonds.

Seventy-five years ago, Bob Edmonds should have received his FFA jacket. A native to McCormick County, he was born to a humble family that lived in a two-room cabin. Edmonds joined the National FFA Organization in September of 1945, at just thirteen years old. During this time, he could not receive his FFA jacket because his family "simply could not afford it." So, instead of wearing his memories on his sleeve, Bob Edmonds treasured those special and fond memories in his heart.

In 1950, Edmonds graduated from McCormick County High School. Upon his graduation, Edmonds joined the South Carolina State Highway Department and studied highway engineering at Piedmont Technical College. In 1973, he was promoted to resident maintenance engineer and was awarded the State Resident Maintenance Engineer of the Year in 1984. Known for his professional photography and books, Edmonds has sixteen published books on local history for which he received the South Carolina Order of the Palmetto.

Through all his achievements, he is most proud of his family. Marring the love of his life Kathryn, at the McKissick Memorial Chapel, on the John de la Howe campus, the two celebrate almost sixty-seven years of marriage. The pair have one daughter, Bonnie Franc, who is married and has two children, Mallory and Darby. In addition, Bob and Kathy now have two great-grandchildren, Ryland Franc, and Kennedy Noel.

Edmonds' love for service is evident as he helped lead the McCormick County Library to receive a new building. The "Bobby F. Edmonds South Carolina and Local History Room" honors his achievement and leadership on the project. Since 1980, Bob has served on the McCormick Soil and Water Conservation District Board. Additionally, Edmonds was the founder of the McCormick County's Cattlemen's Association and was an original member of the McCormick Country Forestry Association.

His love for agriculture and desire to own land ran deep. Gifted by his father, Bob received a 10-acre piece of land that now is the home of Cedar Hill Farms, a 575-acre farm. His love for agriculture inspired him to help the future generation of ag students as he helps secure scholarships annually for students at the South Carolina Governor's School for Agriculture at John de la Howe. Through his partnership with the Governor's for Agriculture's students and FFA, the school wanted to honor his achievements and his love for helping the next generation. Tim Keown, president of the South Carolina Governor's School for Agriculture, thought of no better way to celebrate a man who has devoted his life to service than to give him the one thing he had never received, his FFA jacket.

# MONTHLY NEWSLETTER

SC Governor's School for Agriculture at John de la Howe

One of the greatest honors for an FFA member is to receive his or her FFA jacket. One of the most notable jackets, the FFA jacket, stands as a symbol of distinction and represents all those who have come before and the students who will join long after. This long-standing tradition was first debuted in 1933 at the National FFA Convention. Those who wear the jacket not only wear it with pride but with the knowledge that owning a jacket represents a lifestyle, a unification of members, and a token of tradition. For Bob Edmonds, the day of owning an FFA jacket never came, until now.

In a ceremony celebrated by all students and staff, led by the School's FFA officers, Edmonds finally received his blue corduroy jacket. Edmonds said this ceremony brought back "so many good memories" and was honored to share this special day with the SC Governor's School for Agriculture students.

Edmonds' service and dedication are a beacon for all those around him. His life lessons and wisdom run deep in all areas, but especially in his agricultural journey. Although Bob Edmonds waited seventy-five years for his jacket, the pride and honor of being an FFA member came long before he put the keepsake on. May Bob Edmonds be a lesson to us all to follow the FFA motto deeply and truly, "Learning to Do, Doing to Learn, Earning to Live, Living to Serve."

## BIOLOGY BLAST

Yvonne Banks

This month in Biology 1 class, students have been studying macromolecules. They were presented with a scenario in which a "murder" occurred, and they were tasked with analyzing the stomach contents of the "victim." They used chemical indicators to test for the presence of carbohydrates, proteins, and lipids. These results helped students determine where this fictional victim last ate and therefore, who likely killed them.

# MONTHLY NEWSLETTER

SC Governor's School for Agriculture at John de la Howe

Biology 2 students began the month with a "Selfie Scavenger Hunt." Each student was tasked with finding up to 50 different scientific items or examples and taking a selfie with that object. Students submitted photographs of their animals, various plants, and biological processes.

Next, they began a unit on biochemistry. Students created construction paper models of proteins, lipids, nucleic acids, and carbohydrates. To review what was learned, students worked in groups on a "Matching Macromolecules" activity.

For a fun Halloween activity, students in Biology 2 created fake wounds using common household items. While designing their wound and their story about how they received this injury, students had a brief lesson on how the body heals itself.

SC Governor's School for Agriculture at John de la Howe

## ENGLISH

Dr. Stacy Platt

English 3 Honors: American Literature students completed and presented their *Crucible* Body Biographies. Students started their Ag research, researching relevant and hot button topics in Ag.

English 101: Dual Enrollment students completed their literary analysis essays and their compare/contrast essays. For fun, students rewrote marriage proposals from *Pride and Prejudice* and modernized them. Students will start their persuasive research essays and projects next week.

English 4 Honors: British Literature took a break from medieval texts to research the different regions of the state. Students picked their region and will complete a report and presentation on the Ag elements in each county in their region, including how the Ag world has changed from the early 1800s to now. This research will be added to our current research about the student's personal Ag interest at this school.

English 2 Honors: World Literature students are reading the *Secret Life of Bees* by Sue Monk Kidd and learning about bees and beekeeping. Students explored the different roles of the drone, worker, and queen bees.

## FALL PLANT SALE

Rodney Mann

Thank you to all who attended our first Fall Plant Sale on October 12th! It was a beautiful day with over 80 attendees on our campus. We are so proud of our Aggies' hard work in preparation for this sale. We instituted a new Purchase of Sale Software Cashier and recordkeeping software. Students also sacked and sold deer corn. We expected only 300 sacks and made 450! A special thanks to **The McCormick Garden Club** for your support and assistance during our Fall Plant Sale.

## SOUTH CAROLINA AGRICULTURAL COUNCIL TOUR

Thank you to the **South Carolina Agricultural Council (SCAC)** for choosing our School for their Fall Tour on October 21st! We hope you all enjoyed touring the #JDLH campus and learning more about our mission.

The SCAC hosts quarterly meetings throughout the year which provide important information of interest to members regarding agriculture and forestry in the state.

## ENVIRONMENTAL & NATURAL RESOURCES

Hunter Morton

In Wildlife we have been plowing fields and planted roughly 13 food plots for the 4-H food plot project. Students will work to monitor wildlife and provide key nutrients during the fall.

Our aquaculture system is on its way and we will begin to install it and utilize it to produce fish. Students have been working to take care of our game fish aquarium located in the exhibit room at the Education Center.

Students in Agricultural Science have been working to better understand how to score deer antlers and why it is important. We have scored 2 sets of antlers and will continue with our wildlife unit by planting a class food plot.

Forestry students have been working on dendrology to create a 40-plant tree notebook that they will be able to keep with them as they continue through school. Students learn common and scientific names as well as the native regions for the trees.

## MATH

Dr. Jackie Hayes

After studying three-dimensional figures students went on a campus scavenger hunt to find practical models. Students had to identify and draw the items identified.

## REAL WORLD CLASS

Jennifer Brown & Jordan Glace

### NUTRITION & COOKING

So much gratitude for **Clemson Nutrition Educator, Brandi Anderson!** She taught our Real World students cooking lessons and we can't recommend her classes enough.

She is chock full of nutrition knowledge, humor, and fun! Thanks to the brilliant Brandi, all the students earned certificates of graduation. Real World students showed off their skills by making cooking tutorials while they were at home.

These students then showed off their skills by making cooking tutorials while they were at home. A short video compilation of their work can be found on the **South Carolina Governor's School for Agriculture Library** Facebook page!

## TEAM BUILDING & CRITICAL SKILLS

The Real World class worked on team-building skills while completing the low ropes course on campus. Much fun was had by all!

Students also practiced critical thinking skills and worked with each other to complete fun challenges.

## BASIC CAR MAINTENANCE

Our Real World Class is ready to roll! They practiced changing a tire and basic car maintenance. They also learned about traffic stops and handling violations.

Thanks to our School Resource Officer, **Deputy Steve Osborne**, and Director of Agricultural Operations, **Andrew Warner** for working with our Aggies!

# MONTHLY NEWSLETTER

SC Governor's School for Agriculture at John de la Howe

## NORTH GEORGIA TECHNICAL COLLEGE

We took our Real World class on a tour of **North Georgia Technical College** on October 27th. We learned about their Horticulture, Environmental Technology, and Agriculture programs. We enjoyed lunch in the college cafeteria and they gifted us with a large pineapple plant! On the way back to campus, we stopped for a hike to the stunning **Toccoa Falls**.

## 94TH NATIONAL FFA CONVENTION & EXPO

21 students attended the **94th National FFA Convention & Expo** in Indianapolis, Indiana. We left on Monday, October 25th, and made our first stop at the **North Cumberland Wildlife Management Area in Pioneer, TN**. Biologists spoke with us about the reintroduction of Elk into the area that began in the early 1900s.

We continued to Indianapolis, IN on Tuesday and watched the open wing session of the FFA Convention conducted by the National FFA Officers. Later that day students enjoyed an **Alex Miller** and **Brett Young** concert put on by the National FFA Organization. Students have watched National competing teams and individuals in Parliamentary procedure and prepared public's speaking as they learn how to be successful on the highest level.

This week students will also participate in student workshops to become better leaders for our chapter and the National FFA. There have been numerous opportunities for students to gain skills in public speaking, networking, and communication as well as building life long friendships.

## NATIONAL FFA CDE WINNINGS

Our Wildlife Career Development Event (CDE) Team competed in the National Environmental and Natural Resources CDE and placed in the Bronze level!

*Pictured (l-r): Hunter Morton, Allyson Wright, Emily Rodman, Marion Hollingsworth, and Anna Grace Cross*

Our Agricultural Technology & Mechanical Systems CDE team competed in National Ag Mech CDE and the team received Bronze!

*Pictured (l-r): Collin Greene, Jaquez Perry, Jake Simpson, Lee Fulmer, and Russ Abrams*

## IMAGINE LAKELANDS STEAM FESTIVAL

On October 16th, our Aggies spent the day mentoring over 200 kids about dendrochronology at the **iMAGINE Lakelands STEAM Festival** in Uptown Greenwood. Thank you to our Chemistry teacher, **Jordan Glace**, for putting together this lesson.

## COLLEGE ACCEPTANCES

**Congratulations** to the following students on their recent college acceptances! We are so proud of your accomplishments here at JDLH and beyond.

**Anna Grace Cross**

Abraham Baldwin Agricultural College

**William Huffman**

East Tennessee State University and  
University of Alabama in Huntsville

**Trey Haddon**

West Texas A&M University

## LIAM'S LIBRARY LETTUCE

Jennifer Brown

October 12th was harvest day! After 27 days, **Liam Gesling's** Library Lettuce was harvested from the hydroponic system and given to our Cafeteria staff member, **Sandra Mims**, for future meals in the cafeteria.

## ASTRONOMY CLUB

Jennifer Brown

The JDLH Library sponsors the Astronomy Club and we met on the night of October 23rd to take advantage of the dark skies on campus. Through a telescope, students were able to view Venus, Saturn's rings, and the moons of Jupiter. Thanks to clear skies and the late-rising moon, we were also able to see the Andromeda Galaxy!

Students enjoyed a campfire, s'mores, and hot apple cider while learning about our universe. Lots of gratitude to our History teacher, **Shaylyn Sargent**, for sharing his time, knowledge, and telescope with our Aggies!

## BOTANICAL GARDENS

Jennifer Brown

On October 14th, the JDLH Library took Aggies to the **South Carolina Botanical Gardens at Clemson University**. Educational Coordinator, **Sue Watts**, toured us on the Natural Heritage Trail and shared her knowledge about the different habitats of South Carolina. So much wonder and beauty to be appreciated in our state!

## SUNBELT AG EXPO 2021 & ABRAHAM BALDWIN AGRICULTURAL COLLEGE TOUR

Students, faculty, and staff attended the **Sunbelt Ag Expo** in Moultrie, Georgia on October 21st. After the expo, students received the opportunity to tour **Abraham Baldwin Agricultural College** in Tifton, Georgia.

## 4-H MEETING

Libby Templeton

On October 11th, students held a 4-H meeting with **Jaime Pohlman**, McCormick County Extension Agent.

## RED RIBBON WEEK 2021

In recognition of Red Ribbon Week 2021, our students received a visit from **SC Highway Patrol Community Relations Officers M/Tpr. Brandon Bolt and M/Tpr. Mitch Ridgeway** on October 26. Thank you for visiting our campus and speaking to our students about the dangers of reckless, impaired, and distracted driving.

The following day, **Dana Brock**, Certified Prevention Specialist at **Cornerstone Drug and Alcohol Commission** spoke to students! Cornerstone provides prevention, intervention, and treatment services for adolescents and adults in Greenwood, Edgefield, McCormick, and Abbeville counties. Thank you, Dana, for sharing your knowledge with our Aggies!
